

## Homework #6

Note: Show all work, provide all answers in inches and radians

### Problem 1

- a) Use virtual work to determine the vertical displacement of C
- b) Use virtual work to determine the horizontal displacement of E

Area of members:  $A_{AB} = A_{AC} = A_{BC} = 3 \text{ in.}^2$        $A_{BD} = A_{CD} = A_{CE} = A_{DE} = 5 \text{ in.}^2$   
 $E = 29,000 \text{ ksi}$  for all members

### Problem 2

- a) Use virtual work to determine the rotation at A
- b) Use virtual work to determine the vertical displacement of C

$E = 29,000 \text{ ksi}, I = 100 \text{ in.}^4$

$$(EI)_{AB} = EI$$

$$(EI)_{BC} = 2EI$$
