Fig. 3-5

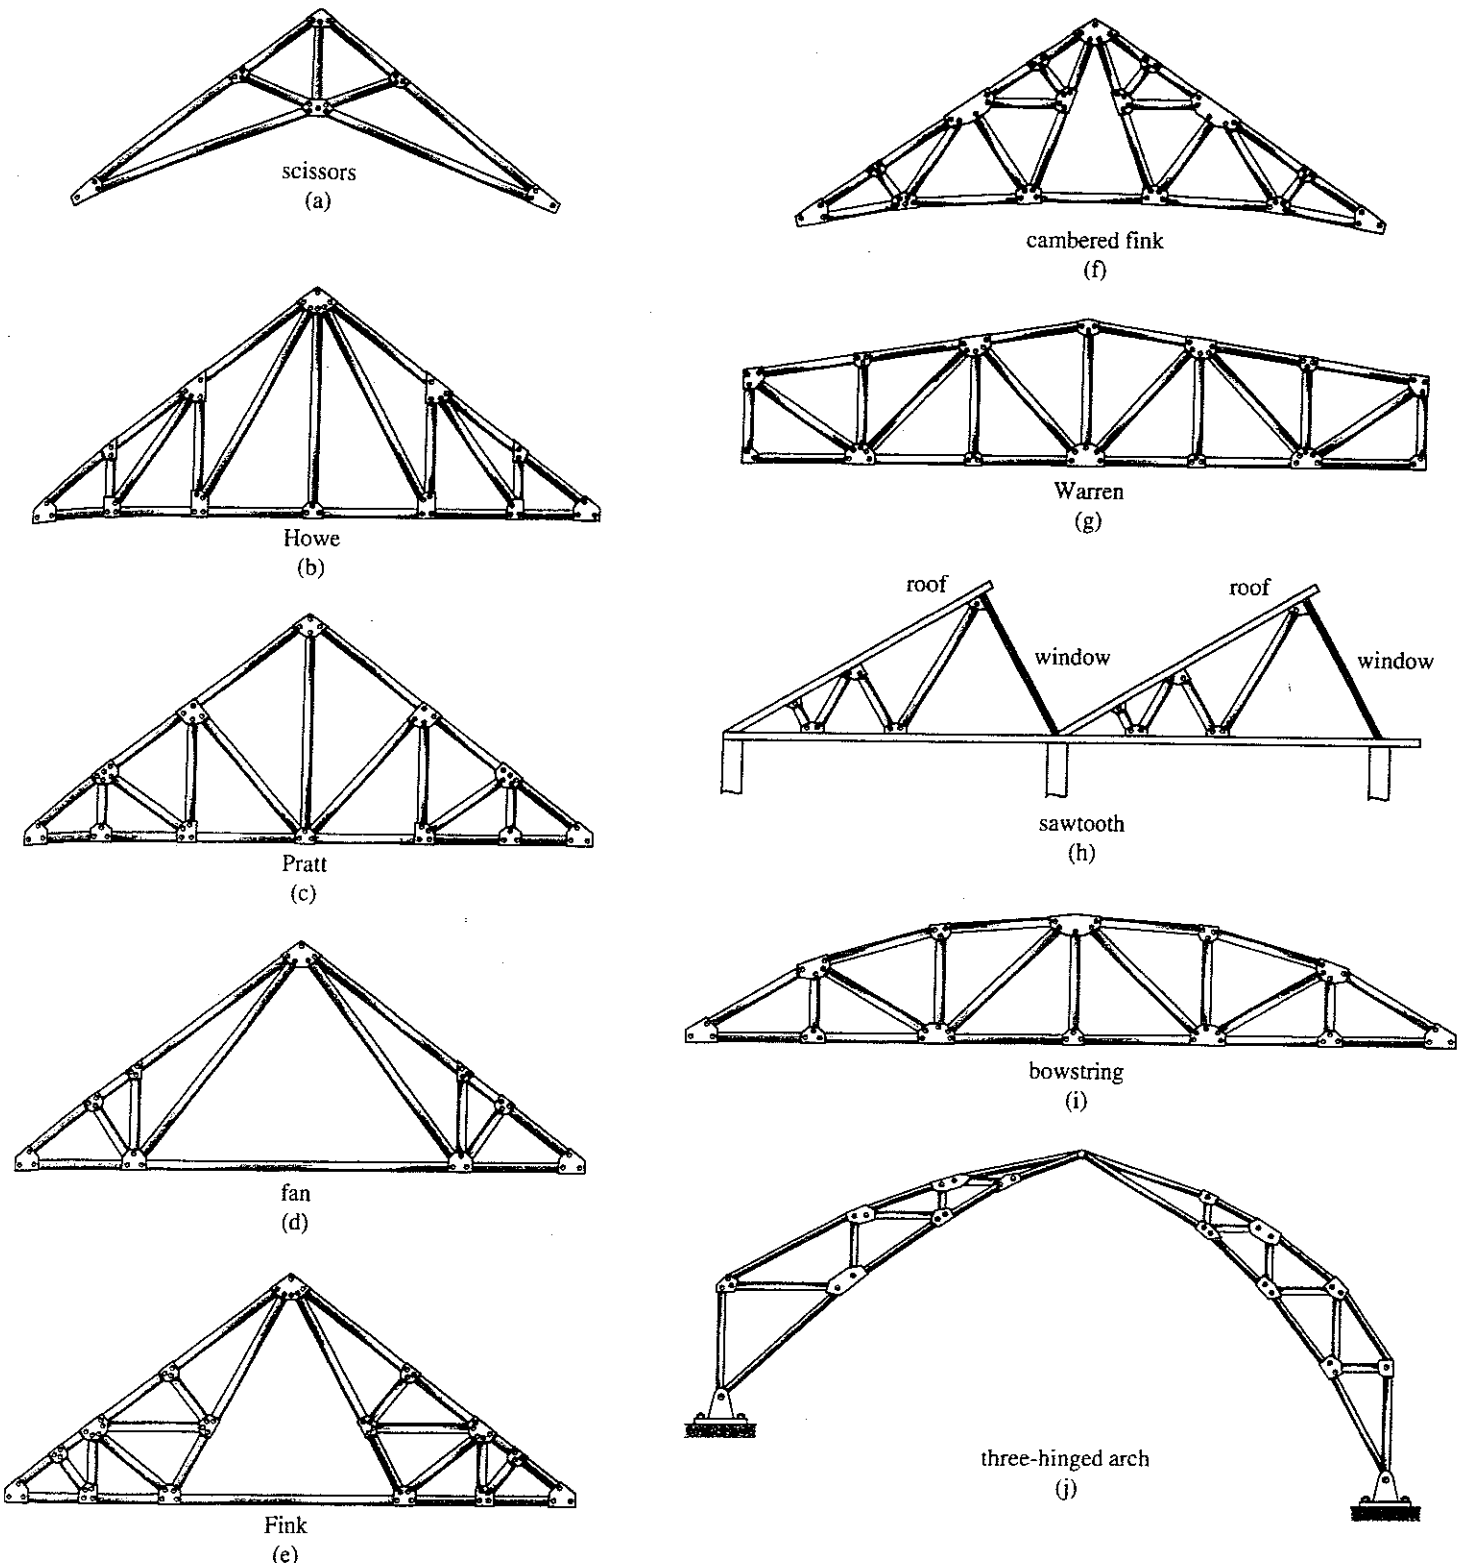

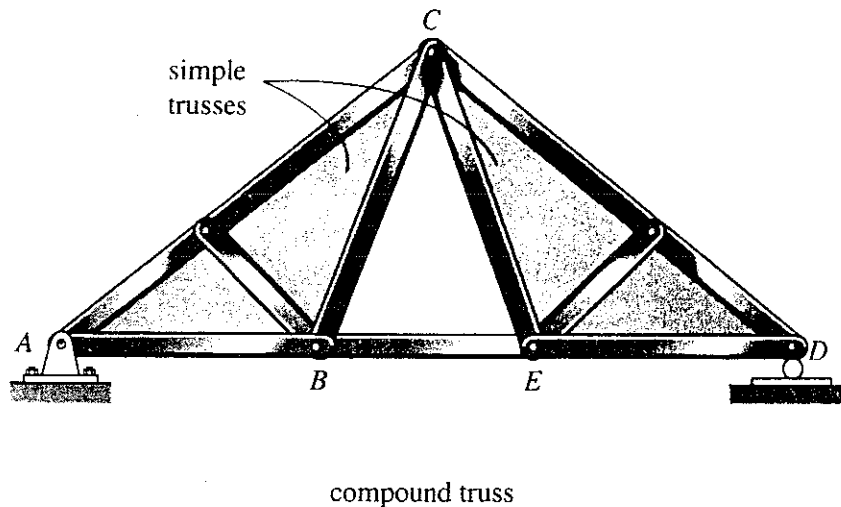

Fig. 3-3

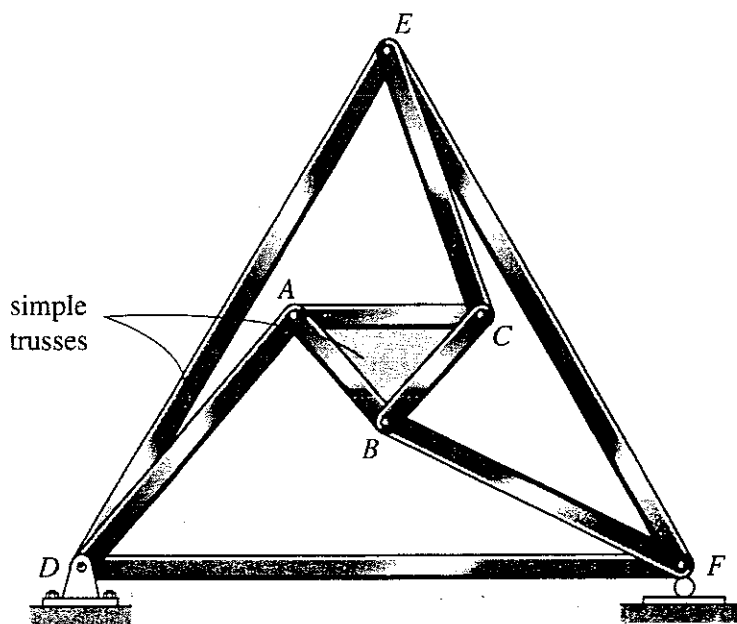

Type 1: The trusses may be connected by a common joint and bar. An example is given in Fig. 3-11a, where the shaded truss ABC is connected to the shaded truss CDE in this manner.

(a)

Fig. 3-11

Type 2: The trusses may be joined by three bars as in the case of the shaded truss ABC connected to the larger truss DEF, Fig. 3-11b.
