Cryptography—ENEE/CMSC/MATH 456 Class Exercise 2/1/2023

1. Prove or refute: An encryption scheme with message space M is perfectly secret if and only if for every probability distribution over M and every $c_0, c_1 \in C$ we have $Pr[C = c_0] = Pr[C = c_1]$.

2. Prove or refute: An encryption scheme with message space M is perfectly secret if and only if for every probability distribution over M, every $m, m' \in M$ and every $c \in C$ we have Pr[M = m | C = c] = Pr[M = m' | C = c].
